**FOR IMMEDIATE RELEASE:** 10/26/2021 \*Announcement\* - From: **TrackMy Solutions Inc., Lenexa, KS**

## **It's All About Choice: TrackMy Remains Focused on Meeting Clients Where They Are**

When TrackMy Solutions first applied their tracking solution to vaccine management, the solution evolved into a more holistic, turnkey approach however the company continues to demonstrate flexibility in meeting the client's changing needs. At a time when employers and companies need to have options to meet COVID-19 safety protocols, TrackMy remains focused on meeting clients where they are. "At TrackMy, we consider our clients as partners," says Kelcey Williams, the company's Director of IT Support and Client Success. TrackMy can help clients stay ahead of changing requirements through options like confirming vaccination status, reporting test results, providing proof of exemption, dosage reminders and symptom tracking.

Recently one of TrackMy's clients needed a vaccination and testing manager where event attendees needed to show proof of vaccination or negative COVID-19 test result to meet safety protocols. Matt Compher, Vice President, Safety Health Environmental & Quality for Quanta Services said, "For our Utilities Perspectives event this year, we chose TrackMy Solutions to manage the vaccination and lab results status of our attendees to meet the requirements of our COVID-19 safety protocol. TrackMy provided excellent support and exceeded our customization needs and expectations for a quick timeline."

Today, clients are asking for management of other vaccines, besides COVID-19 and TrackMy offers a variety of options through their solutions: [TrackMy VeriVax](#), [TrackMy Vaccines](#), and [TrackMy Lab Results](#). With "clients as partners" the company remains focused on working together to promote safety through the pandemic and beyond.
